### Number 1, January 1985

1 K. P. BOTTJER, P. H. KLESIUS and L. W. BONE: Effects of host serum on feeding by *Trichostrongylus colubriformis* (nematoda)

11 T. G. EGWANG, C. D. RICHARDS, A. W. STADNYK, J. GAULDIE and A. D. BEFUS: Multinucleate giant cells in murine and rat lungs during *Nippostrongylus brasiliensis* infections. A study of the kinetics of the response *in vivo*, cytochemistry, IgG- and C3-mediated functions

19 L.-Å. NILSSON, R. LINDBLAD, S. OLLING and Ö. OUCHTERLONY: The effect of cycosporin A on the course of murine infection by *Schistosoma mansoni*

29 DIANE J. MCLAREN, E. J. PEARCE and S. R. SMITHERS: Site potential for challenge attrition in mice, rats and guinea pigs vaccinated with irradiated cercariae of *Schistosoma mansoni*

45 G. PAYARES, DIANE J. MCLAREN, W. H. EVANS and S. R. SMITHERS: Antigenicity and immunogenicity of the tegumental outer membrane of adult *Schistosoma mansoni*

63 W. I. MORRISON and M. MURRAY: The role of humoral immune responses in determining susceptibility of A/J and C57BL/6 mice to infection with *Trypanosoma congolense*

81 J. R. PATTISON and M. W. STEWARD: Circulating antibody-antigen complexes following *Trypanosoma musculi* infection in mice genetically selected to produce high or low affinity antibody

93 Announcement

93 Editorial notice

### Number 2, March 1985

95 K. YAMAMOTO, M. ONODERA, K. KATO, M. KAKINUMA, T. KIMURA and F. F. RICHARDS: Involvement of suppressor cells induced with membrane fractions of trypanosomes in immunosuppression of trypanosomiasis

107 A. A. J. C. VAN ZON, W. M. C. ELING, T. P. M. SCHETTERS and C. C. HERMSEN. ACTH-dependent modulation of malaria immunity in mice

119 A. E. BUTTERWORTH and B. A. RICHARDSON: Factors affecting the levels of antibody- and complement-dependent eosinophil-mediated damage to schistosomula of *Schistosoma mansoni in vitro*

133 A. J. G. SIMPSON, F. HACKETT, T. WALKER, R. DE ROSSI and S. R. SMITHERS: Antibody response against shistosomulum surface antigens and protective immunity following immunization with highly irradiated cercariae of *Schistosoma mansoni*

153 S. MERI, GHYSLAINE RICHAUD and E. LINDER: Complement activation by antigenic fractions of *Entamoeba histolytica*

165 G. F. MITCHELL, J. A. BEALL, K. M. CRUISE, W. U. TIU and E. G. GARCIA: Antibody responses to the antigen Sj26 of *Schistosoma japonicum* worms that is recognised by genetically resistant 129/J mice

179 JACKIE TOWNSEND and W. P. H. DUFFUS: Antibody-dependent cellular cytotoxicity of *Trypanosoma theileri* mediated by purified bovine isotypes and subisotypes

## Number 3, May 1985

191 Point of view
B. M. GREENWOOD: The immunology of malaria—a view from the bush

201 B. GOTTSTEIN: Purification and characterization of a specific antigen from *Echinococcus multilocularis*

213 MARY M. FANNING and J. W. KAZURA: Further studies on genetic variation of hepatosplenic disease and modulation in murine schistosomiasis mansoni

223 G. L. STEWART, BEVERLEY WOOD and R. B. BOLEY: Modulation of host response by *Trichinella pseudospiralis*

235 J. M. BEHNKE and M. ROBINSON Genetic control of immunity to *Nematospiroides dubius*: a 9-day anthelmintic abbreviated immunizing regime which separates weak and strong responder strains of mice

255 K. SUGANE and T. OSHIMA: Induction of a marked eosinophilia by cyclophosphamide in *Toxocara canis* infected SJL mice

265 J. BROWN and B. M. GREENWOOD: Cellular and humoral inhibition of *Plasmodium falciparum* growth *in vitro* and recovery from acute malaria

277 P. SCOTT: Impaired macrophage leishmanicidal activity at cutaneous temperature

289 D. D. WHITELAW and G. M. URQUHART: Maternally derived immunity in young mice to infection with *Trypanosoma brucei* and its potentiation by Berenil chemotherapy

301 PATRICIA M. PRESTON and C. G. D. BROWN: Inhibition of lymphocyte invasion by sporozoites and the transformation of trophozoite infected lymphocytes *in vitro* by serum from *Theileria annulata* immune cattle

315 DIANE J. MCLAREN and STEPHANIE L. JAMES: Ultrastructural studies of the killing of schistosomula of *Schistosoma mansoni* by activated macrophages *in vitro*

333 E. LOBOS and N. WEISS: Immunochemical comparison between worm extracts of *Onchocerca volvulus* from savanna and rain forest

## Number 4, July 1985

349 N. STOREY, D. WAKELIN and J. M. BEHNKE: The genetic control of host responses to *Dipetalonema vitae* (Filarioidea) infections in mice

359 D. A. WASSALL and I. J. SINCLAIR: The serum antibody response of infected rats, rabbits, lambs and calves to *Fasciola hepatica* adult antigen fractions separated by preparative flatbed iso-electrofocussing

367 MARIA VIRGINIA C. LIMA-MARTINS, GITTITH A. SANCHEZ, ANTONIANA U. KRETTLI and Z. BRENER: Antibody-dependent cell cytotoxicity against *Trypanosoma cruzi* is only mediated by protective antibodies

377 S. P. NICKELL, R. HOFF and M. H. BOYER: Susceptibility to acute *Trypanosoma cruzi* infection in autoimmune strains of mice

387 A. W. CHEEVER, J. E. BYRAM and VON LICHTENBERG: Immunopathology of *Schistosoma japonicum* infection in athymic mice

399 A. W. CHEEVER, J. E. BYRAM, SARA HIENY, F. VON LICHTENBERG, M. N. LUNDE and A. SHER: Immunopathology of *Schistosoma japonicum* and *S. mansoni* infection in B cell depleted mice

415 W. HARNETT, J. R. KUSEL and M. M. BARROWMAN: The use of aldehydes to show a relationship between host and parasite antigens at the surface of adult male *Schistosom mansoni*

429 Y. NAWA, M. KIYOTA, M. KORENAGA and M. KOTANI: Defective protection capacity of W/W mice against *Strongyloides ratti* infection and its reconstitution with bone marrow cells

439 A. D. NICKOL and P. E. BONVENTRE: Immunosuppression associated visceral leishmaniasis in hampsters

451 Brief communication
R. S. DESOWITZ and R. RAYBOURNE: Perinatal immune priming in malaria: antigen-induced blastogenesis and adoptive transfer of resistance by splenocytes from rats born of *Plasmodium berghei* infected females

Number 5, September 1985

457 J. C. SILVA, CLAUDE PIRMEZ, MARIZA G. MORGADO and B. GALVAO-CASTRO: Immunopathological aspects of experimental *Trypanosoma cruzi* infection: correlation of immune complexes and other serological features with muscle lesions during the infection

467 M. BELOSEVIC, G. M. FAUBERT and J. D. MACLEAN: *Giardia muris*-induced depression of the primary immune response in spleen and mesenteric lymph node cell cultures to sheep red blood cells

479 E. GHADIRIAN and P. A. L. KONGSHAVN: The effect of splenectomy on resistance of mice to *Entamoeba histolytica* infection

489 J. F. HUNTLEY, G. F. J. NEWLANDS, H. R. P. MILLER, M. MCLAUCHLAN, M. ELAINE ROSE and PATRICIA HESKETH: Systemic release of mucosal mast cell protease during infection with the intestinal protozoal parasite, *Eimeria nieschulzi*. Studies in normal and nude rats

503 G. OLDHAM and LINDA WILLIAMS: Cell mediated immunity to liver fluke antigens during experimental *Fasciola hepatica* infection of cattle

517 A. HAQUE, W. CUNA, B. BONNEL, A. CAPRON and M. JOSEPH: Platelet mediated killing of larvae from different filarial species in the presence of *Dipetalonema vitae* stimulated IgE antibodies

527 R. KRETSCHMER, M. L. COLLADO, M. G. PACHECO, M. C. SALINAS, M. LÓPEZ-OSUNA M. LECUONA, E. M. CASTRO and J. ARELLANO: Inhibition of human monocyte lomotion by products of axenically grown *E. histolytica*

545 R. G. TITUS, M. MARCHAND, T. BOON and J. A. LOUIS: A limiting dilution assay for quantifying *Leishmani major* in tissues of infected mice

557 M. ELAINE ROSE, D. WAKELIN and PATRICIA HESKETH: Susceptibility to coccidiosis: contrasting course of primary infections with *Eimeria vermiformis* in BALB/c and C57/BL/6 mice is based on immune responses

## Number 6, November 1985

567 GERALD M. FELDMAN, JEAN M. NAPLES, JOHN L. SEED and ERNEST BUEDING: Effects of anethole dithiolthione and 2(3)-tert-butyl-4-hydroxyanisole on schistosome granuloma formation

575 D. I. PRITCHARD, C. R. CRAWFORD, I. R. DUCE and J. M. BEHNKE: Antigen stripping from the nematode epicuticle using the cationic detergent cetyltrimethylammonium bromide (CTAB)

587 A. SAUL, J. COOPER, L. INGRAM, R. F. ANDERS and G. V. BROWN: Invasion of erythrocytes *in vitro* by *Plasmodium falciparum* can be inhibited by monoclonal antibody directed against an S antigen

595 W. JARRA and K. N. BROWN: Protective immunity to malaria: studies with cloned lines of *Plasmodium chabaudi* and *P. berghei* in CBA/Ca mice. I. The effectiveness and inter- and intra-species specificity of immunity induced by infection

607 P. G. HARTE, N. C. ROGERS and G. A. T. TARGETT: Monoclonal anti-gamete antibodies prevent transmission of murine malaria

617 P. HAGAN, P. J. MOORE, A. B. ADJUKIEWICZ, B. M. GREENWOOD and H. A. WILKINS: In-vitro antibody-dependent killing of schistosomula of *Schistosoma haematobium* by human eosinophils

625 P. HAGAN, H. A. WILKINS, U. J. BLUMENTHAL, R. J. HAYES and B. M. GREENWOOD: Eosinophilia and resistance to *Schistosoma haematobium* in man

633 R. CHANDRASHEK, U. R. RAO and D. SUBRAHMANYAM: Serum dependent cell-mediated immune reactions to *Brugia pahangi* infective larvae

643 JOHN P. DALTON, TIMOTHY D. TOM and METTE STRAND: *Fasciola hepatica:* comparison of immature and mature immunoreactive glycoproteins

659 Brief communication
J. A. SHERWOOD and J. W. BARNWELL: Antibody mediated strain-specific agglutination of *Plasmodium falciparum*—parasitized erythrocytes visualized by ethidium bromide staining

665 Brief communication
R. M. E. PARKHOUSE, N. W. T. CLARK, R. M. MAIZELS and D. A. DENHAM: *Brugia pahangi:* labelling of secreted antigens with $^{35}$S-methionine *in vitro*
